

CetraSheild 3800

Commercial Security

At a glance;

The cetra sheild 3800 is our number 1 best selling product for commercial security. The 3800 offers an excellent level of security thanks to its unique and strong design. What makes this product extra special is that although it is renowned for its remarkable security the 3800's slim profile slats and contemporary canopy give it a smart and professional look.

Main features of the 3800;

- ▶ Strong extruded aluminium curtain profile
- ▶ Spans widths upto 4000mm
- ▶ Available with custom graphics and logo

Choose me if;

- ▶ You want to blend your security solutions into your surroundings
- ▶ You have a medium to high security application
- ▶ You want a choice between electric and manual operation
- ▶ You are a new build wanting the most integrated seamless system available

- ▶ Mixed with CetraVision38 to provide partial vision

Can be powder coated to match corporate colours
