

# New SecurityShield60

## High Security

### At a Glance;

The New SecurityShield60 uses a double walled aluminium slat to achieve a solid and secure look. This is a high end security product for vulnerable office and commercial applications. This is a great looking shutter which consists of 55mm curved profile slats. Our product can seamlessly blend in as it can be powder coated to match corporate image and colours

- ▶ Very strong aluminium profile
- ▶ Higher security applications on commercial / retail premises
- ▶ Spans widths up to 6000mm and can be powder coated to special colours
- ▶ Can be fitted both internally and externally
- ▶ Available with custom graphics and logos

### Choose me if:

- ▶ You need protection in a larger space
- ▶ You need eternally fitted shutters
- ▶ Your security needs to blend in with the building and surroundings
- ▶ You prefer a larger slat profile

Able to cover up to 20 sqm. !
